The Svensk Köck is a murderous creature known to haunt the vilest kitchens of Graven-Tosk. They often can be found lurking among ancient graveyards searching for ingredients to prepare The Black Feast: a meal that makes those eating it hungrier with every bite. If they do not make a successful Presence DR 14 test, the victim will slowly eat themselves to death - their stomachs and bodies bursting open in a gore spattering crescendo. Their entrails are the primary ingredient of the Svensk Köck's next meal.

Svensk Köck is an independent (total parody) production by Grant Fleming and is not affiliated with Ockult Örtmästare Games or Stockholm Kartell. It is (not really) published under the MÖRK BORG Third Party License.
